# ONIFADE PRECIOUS

onifadej@gmail.com | +234 811 138 4392 | www.github.com/naychurrahl

**Bio Data:**

**Gender:** Male
**Languages:** English and Yoruba
**Marital Status:** Single

**Summary:**

I'm a self-taught handyman driven by the pure thrill of learning and the joy of problem solving. I have garnered experiences in Computer Technology, Graphics design, Photography and Website designing having more than four years of experiences in a fast paced professional, business and educational environment, with excellent analytical skills.

**Education:**

- B.Tech Computer Science
  Ladoke Akintola University of Technology (LAUTECH) 2021
- SSCE (WAEC/NECO)
  Faith Immaculate Academy 2013

**Experience:**

**Phindol (Remote):** Software Engineer 2026 – Till date

- Designed and built a complete company website, handling everything from the user interface to the underlying system and database
- Developed an intuitive, responsive interface using TypeScript and React, making the site easy to use across devices
- Built the server-side functionality in PHP to manage data, user interactions, and business processes
- Structured and optimized the MySQL database to ensure fast, reliable access to information
- Connected all parts of the system to work seamlessly together, delivering a stable and efficient web application
- Identified and resolved issues across the system, improving performance and reliability

**Akanbi (Remote):** Software Engineer 2026 – Till date

- Designed and built a complete web application, handling everything from the user interface to the underlying system and database
- Developed an intuitive, responsive interface using HTML and CSS, making the site easy to use across devices
- Built the server-side functionality in PHP to manage data, user interactions, and business processes
- Structured and optimized the MySQL database to ensure fast, reliable access to information

- Connected all parts of the system to work seamlessly together, delivering a stable and efficient web application
- Identified and resolved issues across the system, improving performance and reliability

**Estelle (Remote):** Graphics designer 2024 – 2025

- Designed eye-catching flyers for events, promotions, and marketing campaigns
- Created well-organized book designs, including covers and interior layouts
- Led a design team as Head of Department, overseeing projects and ensuring quality output
- Transformed concepts and written content into clear, visually appealing designs
- Applied effective use of typography, color, and layout to enhance communication
- Prepared print-ready files with accurate formatting for professional production
- Worked with tools such as Adobe Photoshop, Illustrator, and InDesign
- Ensured consistency and attention to detail across all design work
- Collaborated with clients and team members to deliver designs that meet objectives

**GTBank (Abuja, Nigeria):** C.S.R 2023 – 2024

- Responded promptly to customer inquiries while demonstrating empathy and understanding
- Resolved customer issues efficiently using strong problem-solving skills
- Achieved high customer satisfaction through clear communication and active listening
- Addressed customer concerns on first contact whenever possible
- Managed multiple customer interactions across calls, chats, or tickets
- Maintained professionalism, patience, and quality in all customer communications
- Consistently met performance targets and service-level expectations

**Bloys Gadgets (Remote):** Marketer 2022 – Till date

- Learned to plan and support marketing campaigns across different channels
- Developed skills in creating content for promotions and brand awareness
- Gained experience using basic marketing tools and platforms
- Built understanding of customer needs and target audiences
- Assisted in tracking campaign performance and engagement
- Applied simple strategies to improve reach and visibility
- Collaborated with team members to deliver marketing goals
- Worked towards meeting campaign targets and brand objectives

**NYSC (Enugu, Nigeria):** Technician / Teacher 2022 – 2023

- Taught students basic computer skills while managing daily activities in the computer lab
- Gained hands-on experience maintaining systems, including minor hardware fixes and upgrades
- Supported academic tasks by typing, formatting, and printing examination materials
- Assisted in organizing and coordinating examinations within the lab environment
- Invigilated exams, ensuring compliance with rules and a smooth process
- Developed multitasking, organization, and problem-solving skills in a school setting

**NNPC/PPMC (Abuja, Nigeria):** Intern 2019 – 2020

- Learned to support daily office operations and administrative tasks
- Assisted with organizing files, documents, and records for easy access
- Gained experience in handling basic correspondence, emails, and scheduling
- Supported data entry and maintained accurate information records

- Helped coordinate meetings and general office activities
- Developed communication, organization, and time management skills
- Worked with basic office tools such as Microsoft Word, Excel, and email systems

**Dolf (Remote):** C.S.R 2018 -2019

- Learned to respond promptly to customer inquiries while showing empathy and understanding
- Developed problem-solving skills to resolve customer issues efficiently
- Built the ability to achieve customer satisfaction through clear communication and active listening
- Gained experience addressing customer concerns on first contact whenever possible
- Learned to manage multiple customer interactions across calls, chats, or tickets
- Practiced maintaining professionalism, patience, and quality in all customer communications
- Worked towards meeting performance targets and service-level expectations

**Freelance:** Software Engineer 2017 – Till date

- Gained experience building software applications, bots, and APIs for different project needs
- Worked with technologies such as PHP, TypeScript, Python, React, and Vue.js
- Learned to create user-friendly and responsive interfaces using HTML and CSS
- Developed an understanding of APIs for smooth communication between systems
- Built skills in automating tasks and processes through custom bots
- Learned to design and maintain databases for efficient data handling
- Contributed to both front-end and back-end (full-stack) development tasks
- Applied growing knowledge of software engineering practices to deliver scalable and efficient solutions

**Freelance:** Graphics Designer 2017 – Till date

- Gained experience designing engaging flyers for events, promotions, and brand campaigns
- Learned to create clean, well-structured book layouts, including covers and interior pages
- Developed skills in producing brand materials such as letterheads and business cards
- Applied growing ability to turn ideas and content into clear visual designs
- Used knowledge of typography, color, and layout to improve design quality
- Learned to prepare print-ready files with proper formatting for production
- Worked with tools like Adobe Photoshop, Illustrator, and InDesign
- Built consistency across different design materials through practice
- Collaborated with clients to refine ideas and deliver effective designs

**Certificates:**

- AI Operations and Customer Experience: 2026
- Introduction to Data Science: 2024
- Introduction to Cybersecurity: 2024
- Mastering Linux: 2024
- GTCO Accelerated Entry Level Program 2023
- NYSC: 2023

**Badges:**

- Introduction to Cybersecurity 2024

- Introduction to Data Science 2024
